

# It's Easy Being Green!

## Luv My Pet Dog Walking and Pet Sitting Is Going Green...

**Americans throw away approximately 100 billion plastic bags per year.**

**Of those 100 billion bags, 1% are recycled. It takes 1000 years for ONE plastic bag to break down.**

**As it does, toxic substances leak into the soil and enter the food chain.**

**Approximately 1 billion seabirds and mammals die per year by ingesting plastic bags.**

**They are often mistaken as food by marine mammals. 100,000 marine mammals die yearly by eating plastic bags.**

**These animals suffer a painful death, the plastic wraps around their intestines or they choke to death**

**Plastic bag choke landfills.**

At Luv My Pet we are proud to announce that all of our walkers are now using Biodegradable poop bags. We also offer discounted bags to our clients so they can do the same. All of our invoicing is now online and clients can make online payments as well. We will continue to work hard to find ways to improve our neighborhoods.
